

OCEANEERING®

IN SEARCH OF A
LIFE LESS ORDINARY?

EXPLORE
YOUR POTENTIAL

In your lifetime, you'll spend more hours working than doing anything else other than sleeping.

HOW DO YOU WANT TO SPEND IT?

Just getting a paycheck?

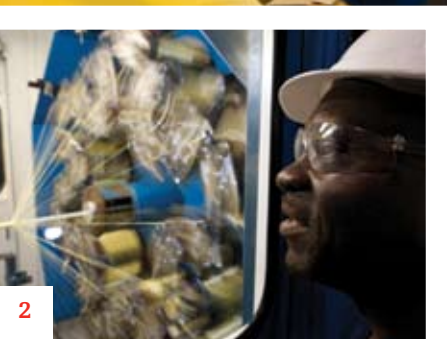

Or working with some of the

WORLD'S EXPERTS

in engineered services and products?

PUSH YOURSELF IN

CHALLENGING ENVIRONMENTS

2

OCEANEERING is a global oilfield provider of engineered services and products primarily to the offshore oil and gas industry, with a focus on deepwater applications. Through the use of its applied technology expertise, Oceaneering also serves the defense and aerospace industries.

SERVICE LINES

↘ *Oceaneering offers challenging careers across many regions and product lines. Our diverse service offerings yield opportunities to start or continue your career in a stimulating and rewarding environment. Many of the positions listed below are typical of opportunities that may be available.*

↘ *remotely operated vehicles*

Oceaneering's Remotely Operated Vehicles group manufactures, operates and maintains the world's largest fleet of work-class ROVs.

+ *Electronic, Mechanical and Pilot Technicians*

↘ *subsea products*

Oceaneering's Subsea Products group manufactures umbilicals and other specialty subsea hardware in addition to offshore pipeline repair equipment.

+ *Electrical, Mechanical, Design & Ocean Engineers*

+ *Tooling Technicians*

↘ *subsea projects*

Oceaneering's Subsea Projects group is responsible for project management, engineering and offshore operations used for light construction, inspection, maintenance, repairs and manned diving from Oceaneering-operated vessels.

+ *Divers*

+ *Electrical & Mechanical Engineers*

+ *Project Managers*

↘ *inspection*

Oceaneering's Inspection service line provides inspection and non-destructive testing (NDT) services to the oil and gas, petrochemical, power generation and engineering industries worldwide.

+ *Inspection Engineers*

+ *Inspectors*

+ *NDT & Rope Access Technicians*

+ *Project Managers*

↘ *mobile offshore production systems*

The MOPS group is responsible for conversion projects, project management and engineering concentrating on a broad range of global field development applications.

+ *Designers*

+ *Electrical & Mechanical Engineers*

+ *Project Managers*

↘ *advanced technologies*

Oceaneering's Advanced Technologies service line provides project management, engineering services, products and equipment for applications outside the oil and gas industry, including government contracts. Advance Technologies also includes Space Systems, Entertainment Services and our Marine Services Division.

+ *Electrical & Mechanical Engineers*

+ *Project Managers*

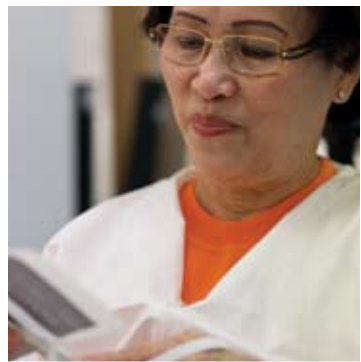

OPEN SPACES FOR OPEN MINDS

We didn't earn our reputation by merely filling slots with just anyone. We dominate our markets by hiring the best and brightest in the business—leaders, not followers—and plugging them into something for which their passion runs deep. If you have discipline and drive, we need talent in a variety of capacities, including:

- + *Designers*
- + *Divers*
- + *Engineers*
- + *Inspectors*
- + *NDT Technicians*
- + *Project Managers*
- + *ROV Pilots*
- + *Tooling Technicians*

↳ *just getting started?*

There has never been a better time to join one of the most influential industries in the world. No matter what your passion, there's a part of our business made just for you. As a vital part of a fast-paced global industry, you'll not only be working with advanced technology, you'll be making a great investment in your future.

No matter what your passion, there's a part of our business made just for you.

↳ *great at what you do?*

Then we should talk. At Oceaneering, we offer competitive compensation, great benefits, exciting projects and growth opportunities. We nurture satisfying and rewarding careers for employees in all service lines and locations.

THERE IS A PLACE FOR THE **ADVENTUROUS SOUL**

THE ADVENTURE AWAITS.

Think you could thrive here?
