

COLOR LED CAMERA

Oceaneering's LED color camera has small dimensions making it suitable for general purpose viewing and manipulator arm applications. The integral LED lighting allows the camera to be used in applications that previously required a separate camera and lamp.

Specifications

Power	24 VDC (200mA)
Video Sig	NTSC / 60 Hz.
Horizontal Res	350 lines
Light sensitivity	0.1 Lux
Diameter	1.5 in OD
Length	4 in
Weight in air	0.5 lb
Weight in water	0.33 lb
Depth Rating	3,000 Meter
