

MULTIPURPOSE CLEANING TOOL

The Multipurpose Cleaning Tool (MCT) consists of a brush head rotated by a hydraulic motor. The MCT uses a mild acid cleaning solution dispensed through the brush head. The MCT is equipped with a handle for ROV manipulator use.

Technical Data / Specifications

Dimensions

Length	15 in
Width	12.2 in
Height	8.5 in

Weight

Air (actual)	31 lb
Water (estimated)	22 lb

Performance Data

Max Output Torque	9 ft-lb
Max Input Pressure	3,000 psi
Drive Motor	OMM 32
Rotation	Reversible / Bi-directional

Interfaces

Hydraulic Fluid	Shell Tellus 22 or equal
Acid	Citric or acetic acid

Item Weights

Weight in Air (kg)	31 lb
Weight in water (kg)	22 lb
