

TORQUE TOOL GEAR ADAPTER

The Oceaneering Torque Tool Gear Adapters are designed to handle class 5, 6 & 7 valves through a class 4 Torque Tool.

The adapters are fully compensated and designed to be stored at the seabed for a period of time through operations. The adapters can be built to client specifications.

Technical Data / Specifications

Performance Data 4 - 5 Adapter:

Depth Rate: 10,000 ft
Size (Ø x L): 13 in x 14.5 in
Weight in Air / Saltwater: 79 / 62 lb
Gear Ratio: 1:3.2
Maximum Torque Output: 5,163 ft-lb

Performance Data 4 - 6 Adapter:

Depth Rate: 10,000 ft
Size (Ø x L): 15.75 in x 30 in
Weight in Air / Saltwater: 111 / 106 lb
Gear Ratio: 1:5.7
Maximum Torque Output: 10,326 ft-lb

Performance Data 4 - 7 Adapter:

Depth Rate: 10,000 ft
Size (Ø x L): 15.75 in x 27.5 in
Weight in Air / Saltwater: 180 / 135 lb
Gear Ratio: 1:16
Maximum Torque Output: 25,446 ft-lb
