

# ELECTRICAL JUNCTION BOX

The purpose of the Electrical Junction Box (EJB) is to provide a means to have a stationary docking point to join several subsea electrical components and to expand the capability of current subsea hardware. It also serves as a way to make the Mini-Gateways retrievable for service.

## Technical Data / Specifications

### *Subsea Design Life*

20 years

### *Est. Weight*

In Air 4,700 lb

In SW 4,015 lb

### *Dimensions*

8 ft X 10 ft X 6 ft-10 in
