

SUPER GRINDER

Oceaneering's Super Grinder is designed for the quick and efficient cutting of materials. Its uses have broadened over time, as it can cut through almost anything as long as the thickness is reasonable (up to 1 ½ in). The grinder has a bent axis variable displacement motor.

Technical Data / Specifications

Hydraulic Motor

Pressure:	2,800 psi min - 3,000 psi max input
Flow:	10 to 20 gpm max input
RPM:	1,800 (Optimal) 3,000 (Maximum)
Connection Type:	3/8 in JIC Supply & Return 3/8 in JIC Case Drain
Est. Saw Weight:	25 lb in air 20 lb in Water

Cuts

- Hand rail
- Grating
- Plate
- Toe kick
- Angle / C-chnl / I-beam
- Pipe
