

eMultipurpose Cleaning Tool

The eMultipurpose Cleaning Tool is powered by a high-performance electrical motor and removes both hard and soft marine growth from surfaces subsea.

FEATURES

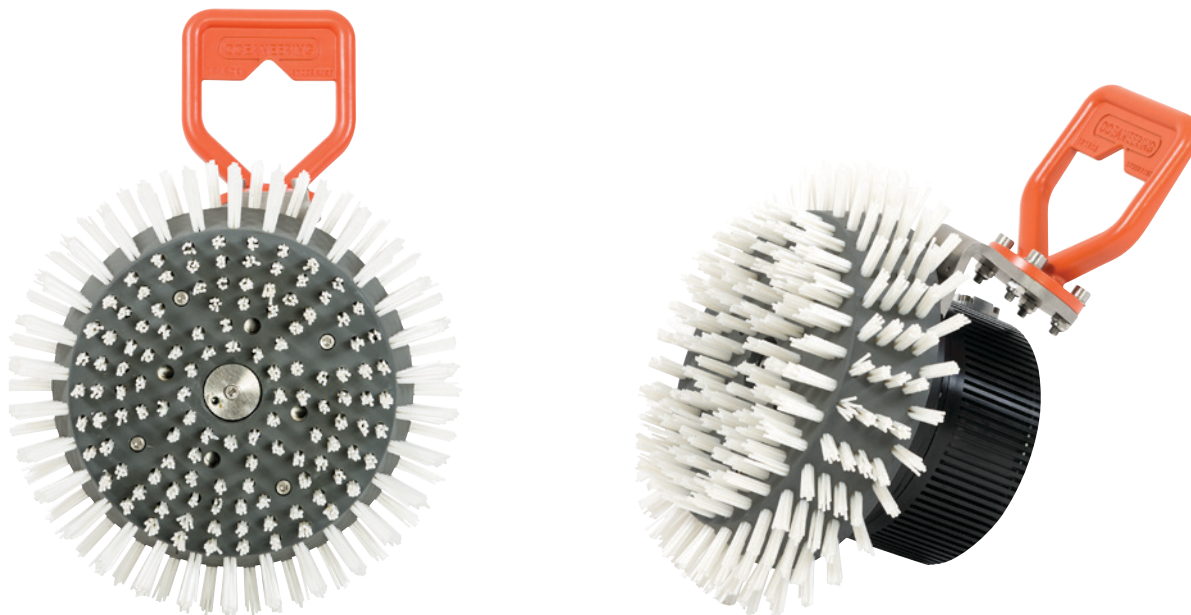

Powerful electric drive

ROV manipulator held

Removes marine growth easily

eMultipurpose Cleaning Tool

The bristles on the standard brush head are plastic to avoid damages to sensitive, critical components including seal surfaces. The tool can be configured with a stainless steel brush or to meet customer specific requirements.

Technical data

L x W x H	15 in x 8.3 in x 8.5 in / 380 mm x 210 mm x 215 mm
Weight in air	~55 lb / ~25 kg
Weight in water	~46 lb / ~21 kg
Temperature	14° F to 122° F / -10° C to 50° C
Depth rating	10,000 ft / 3,000 m
Mechanical interface to ROV	Standard D-Handle or tool specific
Power source input	3-phase 0-380 VDC 0-25A
