

# Long-Term Wellhead Protection Cap

## Secure protection cap for ROVs

The Long-Term Wellhead Protection Cap is designed to be secured to an 18.75-in (47.62-cm) wellhead profile. For remotely operated vehicles (ROVs), this protection cap has three operable locking screws to secure to the wellhead and tie into the wellhead cathodic protection.

The Long-Term Wellhead Protection Cap includes a dual port receptacle for inhibitor injection and protection stabs. Integrated dual-direction check valves retain inhibitor fluid after injection.

### Specifications

**Weight:**

In air 268 lb / 122 kg  
 In water 134 lb / 61 kg

Height 43 in / 109 cm

Width 31 in / 79 cm
