

Riser/Mooring Line Cleaning Tool

Fast and efficient removal of marine growth

The ROV-operated tool removes marine growth without damaging an asset's protective outer coating. The tool can be configured with various combinations of brushes and scraping tools for optimal performance.

FEATURES

Continuous rotating cleaning head

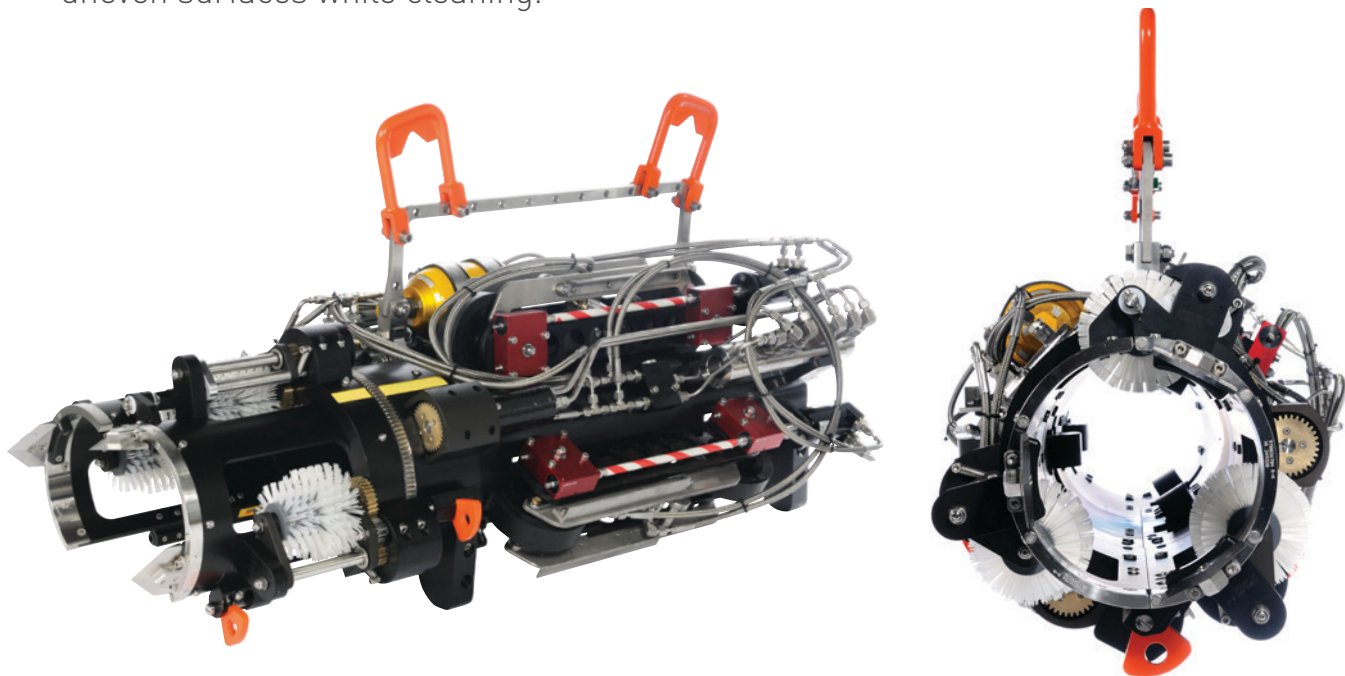

Cleans complete length in single run

Integrated traction system

Riser/Mooring Line Cleaning Tool

Fast and efficient removal of marine growth

The tool is hydraulically opened and closed for docking and integrated fail-safe locks keep the tool body closed during operation. The 6-wheel integrated traction system can operate the tool at any angle and the suspension system enables the tool to handle uneven surfaces while cleaning.

Technical data

| | | | |
|----------------------|---|-----------------------|------------------------------------|
| Depth rating | 10,000 fsw / 3,000 msw | Maximum input flow | 4.4 gal/min / 20 l/min |
| Weight in air/water | 373 / 268 lb 169 / 122 kg | Connections motor | Oceaneering 6L stab and receptacle |
| Size (L x W x H) | 51.1 x 22 x 35.4 in 129.8 x 55.9 x 89.9 cm | Connections cylinders | Oceaneering 6L stab and receptacle |
| Operational pressure | 3,000 psi / 207 bar | | |
