

# Stanley TP03 Trash Pump

## Dredging/jetting pump

The Stanley TP03 Trash Pump is an ROV-mounted tool predominantly used for the cleaning and removal of drill cuttings from drilling templates and guide bases. The Stanley Trash Pump is used for small dredging and light cleaning (jetting) tasks. It can move large quantities of liquids at low pressure and can handle 25% by volume concentrations of solids up to 3 in (25.4 mm) in size.

### FEATURES

**Removes sand, mud, and clay from around work structures**

**Ideal for light cleaning tasks**

**Dredges solids up to 3 in (25.4 mm) in size**

### Technical data

Dimensions (L x W x H)	14 x 16 x 12 in / 356 x 406 x 305 mm
Weight:	
In air	31 lb / 14 kg
In water	24 lb / 11 kg
Capacity	450 gpm / 1703 lpm
Hydraulic supply pressure	2,000 psi / 13.8 MPa
Hydraulic supply flow	7–9 gpm / 26.5–34.0 lpm

### Transport information

Transport case (L x W x H)	47.2 x 39.3 x 31.5 in / 1200 x 1000 x 800 mm
Weight	397 lb / 180 kg
