

First Aid Saves Lives

Know how to provide basic care to stabilize patients until emergency medical services arrive

First-aid facts

- Lack of skills in first-aid kills as many as cancer every year.
- 911 has an average response time of 11 minutes.
- If CPR is performed within four minutes, up to 200,000 lives could be saved each year.
- 70% of Americans don't know CPR.
