

Is Your Drinking Water Safe?

Take steps to ensure your drinking water is safe

- Avoid handling the rim or mouth of a drinking container.
- Avoid bottled water when you can. Use glass, ceramic, or metal containers instead for drinking water.
- Do not expose water to the open air or heat, which can introduce germs.
- Discard leftover water that has been sitting for two or more days.
- Verify if drinking water has an expiration date.
- Never reuse plastic bottles for drinking water.
