

# Oceaneering Conflict Mineral Compliance

## Instructions for Oceaneering Suppliers

Dear Valued Supplier,

Oceaneering takes seriously and remains committed to full compliance with all regulatory obligations. As such, Oceaneering has selected Assent Compliance as a trusted partner to ensure compliance with Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Conflict Mineral Compliance).

You can view a copy of our Conflict Minerals Program Policy and view copies of our past disclosures to the U.S. Securities and Exchange Commission on our website at:  
<https://www.oceaneering.com/sustainability/ethics-and-compliance/>

If your company's products, which are sold to Oceaneering, contain any 3TG minerals (Tin, Tungsten, Tantalum or Gold), please download a Conflict Minerals Report Template from the Vendors section (Conflict Minerals Reporting) of our website and once completed, email it to both [conflict-minerals-oi@oceaneering.com](mailto:conflict-minerals-oi@oceaneering.com) and [oceaneeringrequests@assentcompliance.com](mailto:oceaneeringrequests@assentcompliance.com) with your Oceaneering supply chain representative also in copy.

Please contact [oceaneeringrequests@assentcompliance.com](mailto:oceaneeringrequests@assentcompliance.com) or [conflict-minerals-oi@oceaneering.com](mailto:conflict-minerals-oi@oceaneering.com) if you have any questions regarding our Conflict Minerals program.

For additional information related to Conflict Mineral compliance, please visit Assent Compliance's **Resource Center**.

Sincerely,

Jock J. Pool  
Chief Compliance Officer  
Oceaneering International, Inc.
