

Why should you keep your processes current?

- **Obtain greater control, traceability, and access to data**
Tracking information, carried out by quality and the responsible sector, ensures greater control of the data.
- **Optimize time spent on activities and processes**
Carry out activities more efficiently by being in accordance with updated processes.
- **Ensure Information security and reliability**
Periodic updates to documents ensures the information is reliable and correct.
- **Reduce operational costs**
By following current processes, you can increase your efficiency, reduce production costs, and eliminate or lower costs related to rework.
